Indiana Michigan Power Commercial & Industrial Energy Efficiency Programs

PRESCRIPTIVE REBATES PROGRAM For Indiana Commercial & Industrial Customers

The Prescriptive program makes it easy for Indiana Michigan Power's (I&M) Indiana customers to complete an energy saving project. This program offers cash rebates paid per unit installed to help offset the cost of the project. View the list of predetermined energy efficient measures and find out what works best for you. With so many options available, you're sure to find energy savings! If you don't see what you're looking for on our Prescriptive list, your project may be eligible for the Custom Incentives program.

Popular Measures:

- Interior/Exterior Lighting
- VFDs
- Cooking Equipment
- Refrigeration
- Occupancy Sensors

Projects must be completed within 90 days of invoice date or before November 13, 2015 to qualify for rebates. Funds are limited and paid on a first come first served basis.

CTRICIDEAS.CO

Eligibility

- Must be a commercial and industrial customer in the I&M Indiana service territory.
- Projects with an estimated rebate over \$10,000 requires pre-approval before starting any work.

Prescriptive Rebate Cap

\$150,000 per site and \$300,000 per company per program year – across all programs.

Lighting fixture measures must be a one for one replacement. All Lighting fixtures must be on a qualified products lists, see application for more details.

To Participate

- **Step 1.** Review the list of energy efficiency measures.
- Step 2. Purchase and install your energy efficiency equipment.
- Step 3. Submit your application and supporting documentation.
